Lunch & Learn

AVS would like to give back to our referral partners for nearly two decades of support by providing complementary Lunch & Learns with our board certified anesthesiologist, Dr. Carolyn McKune, on any topic of your choice.

Lunch & Learns will be held in your clinic on a day of your choosing. Lectures will last approximately 30-60 minutes, depending on topic choice. AVS will provide lunch & educational material for your staff as well.

Topic ideas include: New drugs (i.e. Alfaxan), Monitoring & anesthesia equipment, Major concerns regarding anesthesia, Systemic disease & safe anesthesia, Advanced analgesic techniques, or any topic of your choice!
